

## Pacific Northwest Mountain Flying

During this seminar we will look at both trans-mountain flight, canyon and valley flying, mountain meteorology, route selection, aircraft performance considerations, in-flight emergencies, and survival considerations. Course will be taught by Shawn Pratt who has flown mountainous terrain ranging from the Blue Ridge Mountains, Northern Rockies and Cascades, to the rugged terrain of Southeast Alaska. This promises to be an upbeat and interactive event to prepare pilots for the upcoming summer season!

**Directions:** Seminar will be held at the Pierce County/Thun Field Airport, in the upstairs banquet room at the Spencer Aircraft building, located next door to the Hangar Inn Diner. Safety in Motion Flight Center occupies the western 1/2 of the building.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
